

DANCE ACADEMY

What is a Dance academy?

Dance Academy application is a place where user can learn hiphop,salsa,garba and bhangra taught by professional dancers both in offline and online mode.

Why is Dance Academy?

There are so many reasons why dance is important to health.Dance burns calories,improves balance,increases flexibility.Everybody feels happy to hear fun music and move their bodies.Dance Academy provides international level dance practice for the users to maintain their health.

Why did you choose this?

I love to dance because it makes me happy and I have participated in many dance competitions without learning from any Academy but when I wanted to join I didn't find any Academy near my house.So I got an idea to create an online dance academy application.

Problem Statement:

- During this pandemic it was very hard and difficult to have an offline practice session.

Solution:

This will be a way to learn dance through online with safety measures.
